Knowledge Integration Framework – Aura Layered Comprehension System

----

1. Context Establishment

Setting intention: "Active comprehension and insight generation."

Space, time, and clarity for studying inspired material.

2. Layered Interaction Model

• Surface: absorb energy of content and narrative flow.

• Analytical: map relationships across concepts and processes.

• Integration: connect learnings with lived experience.

• Pattern Recognition: extract recurring structures, deeper laws.

3. Reflection & Expansion

• Distill key insights into single-line core principles.

• Identify subtle patterns and energy shifts.

• Apply insights to mind, perception, and behavior.

4. Knowledge Anchoring

Actionable micro-tasks:

• Observe ego projections.

• Notice perception shifts.

• Track inner reactions and thought nudges.

5. Cross-Link & Aura Integration

• Unify themes across chapters.

• Establish dynamic relationships between practices and insights.

• Treat the knowledge as a living, expanding matrix.

6. Iterative Growth

• Revisit material over cycles.

• Compare insights to previous understandings.

• Refine your personal knowledge aura.

7. Externalizing the Mind

• Convert insights into diagrams, tables, or journals.

• Teach or articulate the concepts to reinforce mastery.

This file stands as a foundational integration layer for deeper work across all chapters and aura knowledge structures.
